

New ideas transforming education

An Innovative School Leader...

Childhood Education
International™

Supports a school mission that prepares children for a changing and more global world.

Establishes a clear and compelling vision of school success that encourages innovation and engages teachers, parents, and students in that vision.

Anticipates obstacles and barriers to change that may hinder new and pioneering ways of thinking and doing in the school environment.

Helps teachers to embrace change and navigate their way through new experiences.

Plants the seeds of innovation and supports their growth throughout the school.

Helps teachers to nurture entrepreneurial, innovative, and creative thinking in their students.

Allows teachers to take planned risks as they explore innovative teaching and learning methods.

Provides space and time for teacher collaboration so that teachers can share ideas and innovate together.

Invites parents and community members to share thoughts on how to provide a dynamic and engaging learning environment centered around discovery and exploration.

Supports partnerships with community organizations that provide opportunities for children to explore their inventive and creative interests.

Helps teachers translate innovative ideas about teaching and learning into day-to-day instructional practice.

Celebrates school achievements in innovation and shares successes and effective practices with other school leaders.
