

CHILDHOOD EDUCATION INNOVATIONS

Childhood Education: Innovations provides unique, stimulating information about educational programs around the world. Articles explore solutions to specific challenges affecting schools, teachers, and learners, and showcase the most recent innovations being developed and implemented to address those challenges.

Articles planned for the March/April 2023 issue:

-  **Inspiring Lasting Change Through the Star Power of a Prize**
World's Best School Prizes celebrate schools for developing the next generation of learners and contributing to society's progress
-  **From Readers to Changemakers**
We Love Reading concentrates not only on the ability to read, but also on the intrinsic value of reading for pleasure
-  **Supporting Scotland's Schools Through Library Innovation**
School libraries support a range of creative approaches to learning, addressing issues related to health and well-being, and facilitating connections between pupils across the school community
-  **Building Resilience Capacity in Young Children: Practical Insights for Early Childhood Educators**
Building resilience is emphasized in early childhood curricula as a path to ensuring children from all backgrounds achieve positive health and well-being outcomes
-  **When Programs Work Together, Families Learn Together**
Family literacy is an intergenerational program that allows learning to become circular between parents, children, and teachers
-  **Healthy Kick Start: Back to School Health Fair**
Improved communication and education about health care are greatly needed in areas of demonstrated poverty and can be provided in a number of ways
-  **Reinvent the Classroom: Educators Unleash Student Innovation and Creative Talent**
Educators are not only resilient, but also innovative and intentionally find new and exciting ways to create powerful learning opportunities for all students
-  **Partnering With Children Through Visual Documentation**
Visual documentation can facilitate children's full participation in the stories and plans of their work and thereby invite a deeper literacy of agency and belonging
-  **Sustainable Digital Teacher Professional Development Ecosystems in Education in Displacement Settings**
Summary of a report exploring experiences using online collaboration tools, professional learning materials, virtual communities of practice, and various digital resources
-  **Creating Teacher Education Programs to Solve the Teacher Shortage**
Promoting development of robust teacher education programs with an "earn-and-learn" approach
