

Technical Assistance & Consulting Services

Childhood Education International works in partnership to design and co-develop inclusive, equitable, and holistic approaches and innovation solutions to education challenges.

We offer cutting-edge, customized services to meet our clients' needs and ensure positive outcomes for children. We specialize in identifying solutions to the most difficult challenges hindering children's development, where innovative and creative solutions are most needed. Our services provide support to teachers, teacher educators, and other leaders whose work focuses on children's development, education, learning, and wellbeing. We design and deliver programs, training, professional development, consultancy services, and advisory services.

Key Services

Training Design & Development

We create customized training materials and curricula based on identified needs, including modules on topics such as project management, monitoring and evaluation, and cross-cultural communication.

Training Delivery

We facilitate in-person and online training sessions, workshops, and seminars for participants, using interactive and participatory methods to ensure effective learning.

Technical Assistance

We provide one-on-one or group-based support to individuals or organizations, such as mentoring, coaching, and advising, to help them apply new knowledge and skills to their work.

Needs Assessments

We conduct assessments to identify the specific training and technical assistance needs of target groups or organizations.

Policy Advocacy

We support advocacy efforts to influence policies and practices that affect development outcomes, based on evidence and best practices.

Continuing Education Credits (CEUs)

CE International is an IACET Accredited Provider and provides internationally recognized instructional practices and continuing education credits (CEUs).

Monitoring & Evaluation

We develop tools and processes to assess the effectiveness of training and technical assistance interventions and to track progress toward learning objectives and development goals.

Capacity Building

We support the growth of capacity for local trainers and facilitators to deliver training and technical assistance independently, ensuring sustainability of interventions.

Knowledge Management

We facilitate the sharing of best practices, lessons learned, and resources among stakeholders through platforms such as online forums, communities of practice, and knowledge sharing events.

Partnership Development

We build linkages with local and global organizations, governments, and other stakeholders to enable co-creation and leverage resources and expertise for more comprehensive and impactful interventions.

Quality Assurance

We provide regular review and feedback mechanisms that ensure organizations' training and technical assistance services meet established standards of quality, relevance, and effectiveness.

Project Management & Program Services

We provide project and program services such as design, implementation, and management.
