

Center for Business Champions

at Childhood Education International

The Center for Business Champions (CBC) supports early childhood development and business leaders around the world in building effective and lasting partnerships.

Partnerships between business and early childhood development leaders contribute to a better quality of life for children through opportunities to grow and learn foundational skills that will support their development and eventual entry into the workforce.

Through investments in children's education, healthcare, and protection, business leaders can help working parents be more productive on the job and can make communities and nations places better places to live, work, and invest.

Creating win-win partnerships between business and early childhood development leaders

Bridging Gaps: Building Communication and Collaboration to Achieve Mutual Goals

Training Program for ECD Leaders

A high-impact training designed to provide child development leaders with the tools to confidently engage businesses, advocate for investment in early childhood, and build sustainable partnerships. Training sessions can be tailored to fit the specific circumstances of individual organizations, cities, countries, or regions.

Strategic Advisory & Custom Consulting for ECD Leaders

One-on-one expert guidance for child development organizations to develop country-specific engagement plans, assess business readiness, and create a tailored roadmap for successful partnerships.

Corporate Workshops & Advisory Services for Business Leaders

We provide a data-driven, compelling case for investing in early childhood development (ECD) and actionable insights into how companies can integrate ECD into their corporate social responsibility (CSR) and sustainability (ESG) strategies.
