

Childhood Education
International

Partner With Us

Building Bright Futures for
Every Child, Every Nation.

About Our Work

Childhood Education International (CE International) is a global consulting service deeply committed to building children's care and education worldwide. With more than **130 years of experience** and a network spanning **100+ countries**, CE International has brought services and resources to thousands of educators and caregivers worldwide.

Professional Learning Solutions

Our Professional Learning services equip educators, leaders, and institutions with the tools, training, and resources to elevate teaching practices and advance equitable learning outcomes for all children. We co-design programs that are context-relevant, evidence-based, and rooted in inclusive pedagogy and community engagement.

Teaching and Learning Technical Assistance

Our customized trainings introduce educators and school leaders to innovative, child-centered pedagogy adapted to local contexts.

Curriculum & Teaching Guide Development

We work with schools, NGOs, and governments to develop curricula and teaching guides aligned to national standards and reflective of community-specific needs.

Advancement of Effective and Equitable Practices

Our trainings and tools ensure that school leaders and educators promote ethical, inclusive and human-centered approaches.

Micro-Credentialing Program

Our competency-based professional recognition programs empower educators to advance their careers through flexible, self-paced learning.

100+

Countries Worldwide

CE International partners with organizations and institutions in the early childhood development ecosystem through direct consulting, strategic advising, and resource development, such as:

- ✓ Competency frameworks and teaching and learning resources
- ✓ Teacher training guides and curriculums
- ✓ Communities of practice and peer learning networks
- ✓ Open-source micro-learning tools and modules

Our Impact in Action

CE International has supported hundreds of partners — including Sesame Workshop, BRAC, the International Rescue Committee, the Inter-agency Network for Education in Emergencies, and community-led organizations — to empower educators in crisis-affected and underserved communities to deliver high-quality, inclusive learning experiences.

Pathways to Teaching Project

Supporting 50 refugee and (im)migrant adult fellows in 2023-2024, this project supported aspiring educators with refugee and (im)migrant backgrounds and addressed two pressing issues — teacher shortages and a need for a more diverse teacher workforce in the U.S.
