International

Partner With Us

Building Bright Futures for
Every Child, Every Nation.

About Our Work

Childhood Education International (CE International) is a global consulting service deeply committed to building children's care and education worldwide. With more than **130+ years of experience** and a network spanning **100+ countries**, CE International has brought services and resources to thousands of educators and caregivers worldwide.

Quality Assurance Solutions

Our Quality Assurance services develop clear, consistent, and measurable standards of excellence. We help schools, organizations, and governments strengthen accountability systems, improve program quality, and ensure that every young child receives safe, equitable, and developmentally appropriate care and education.

Quality Recognition for Accrediting Agencies

We independently review and validate accreditation standards to highlight excellence, reinforce confidence in early childhood quality assurance systems, and offer quality recognition to accrediting agencies, including government ministries.

Certification of Early Childhood Trainings

We offer a global mark of distinction that validates early childhood training programs for organizations, schools, and institutions, demonstrating alignment with rigorous international standards that equip participants with current, evidence-based skills.

Early Childhood Teacher Credentialing

We design recognized credentials aligned to international teaching and learning standards, adaptable to local early childhood education, policy, and workforce needs.

Guidance for Early Childhood Program Quality

We offer guidance for developing clear, context-appropriate quality standards and curricula that align with global best practices and promote child wellbeing.

100+

Countries Worldwide

Our Approach

CE International partners with organizations and institutions in the early childhood development ecosystem through direct consulting, strategic advising, and resource development, such as:

- ✓ Tool creation and diagnostic assessments
- ✓ Certification and credentialing
- ✓ Quality frameworks and feedback systems
- ✓ Implementation support and monitoring

Our Impact in Action

Projects such as our Leadership Training in Vietnam and Quality Holistic Learning Project have improved quality assurance practices and enhanced equitable early learning outcomes across regions.

Quality Holistic Learning Project

Between 2021–2023, CE International worked with teams of teachers and education stakeholders in Lebanon, Kenya, and Niger to create, test, and refine professional learning materials in Arabic, English, and French for those teaching in displacement, emergency and refugee contexts. Subsequent work expanded to Ukraine and Lebanon, where our teams adapted and contextualized the materials for new learning environments.

Early Childhood Education Leadership Training in Vietnam

CE International recently partnered with Vietnam’s Ministry of Education and Training to strengthen early childhood leadership and quality assurance nationwide, equipping more than 2,500 school leaders to implement standards and drive continuous improvement.
