

CHILDHOOD EDUCATION INNOVATIONS

Childhood Education: Innovations provides unique, stimulating information about educational programs around the world. Articles explore solutions to specific challenges affecting schools, teachers, and learners, and showcase the most recent innovations being developed and implemented to address those challenges.

Articles planned for the May/June 2026 issue:

Green Bronx Machine: Growing High-Performing Schools and Happy, Healthy Children

An extensive program that transforms classrooms into “edible laboratories.”

Slow Science: Exploring the Remains of Children’s Play

The unfinished remnants of children’s play are invitations for creativity, inquiry, and connection.

From Check-Ins to Connection: Strengthening Classroom Wellbeing With WOOF

WOOF is a digital platform designed to make the work of wellbeing development simple, authentic, and meaningful.

Translanguaging: Inclusive Reading Instruction in Multilingual Contexts

Translanguaging offers an adaptable pathway for educators seeking to improve early literacy outcomes in diverse classrooms.

The CANDLE Project: Climate Change Education in Pakistan

Pakistan’s Introductory Curriculum on Climate Change Education incorporates social-emotional learning concepts to foster empathy, responsibility, and environmental awareness.

Genius Awaiting Discovery: Rethinking Learning Difficulties

What may look like a limitation in one setting could be a seed of brilliance in another.

Implementing STEM Education in Kindergarten: Insights From Finland

Early childhood education students explored ways to implement STEM in kindergarten.

Enhancing Early Literacy Development Through Dialogic Reading

Dialogic reading has the potential to dramatically boost early literacy through active participation, improved language, and cognitive learning.

AI Literacy Through Joint Media Engagement

Joint media engagement can support the development of media literacy in general and AI literacy in specific among children in their care.

Elementary Civic Service Learning: The Baby Blanket Project

Primary grade students worked in multi-age teams to create baby blankets for community families in need.
